hobbies and interests

- Capoeirista for more than 15 years.
- I like mixed martial arts
- I like to solve rubik's cubes and other puzzles

Profile

Web programmer with more than 3 years of experience in frontend frameworks such as VueJs and Angular and backend development with node and php. Throughout this time I have had the privilege of knowing different programming languages with which I have developed some web applications and one or another application for android devices, SCRUM being a support methodology to guarantee their quality. I seek to be part of development teams to enhance my knowledge and contribute greatly to the technology industry.
